Abstract

Our contemporary world, as it is challenged by polycrises, calls for new visions and pathways of learning and co-learning at the levels of self, culture, society, and the world. Here we can learn with Ivan Illich and Chitta Ranjan Das. Illich is known for his epochal works such as *Deschooling Society* and *Tools of Conviviality*. Chitta Ranjan Das is a multi-dimensional creative seeker and thinker of our world who explored new dimensions of education, co-learning, philosophy, literature, social criticism, and cultural creativity.
